MCSA Statement Regarding Biden Administration Announcement on New Efforts to Address Violent Crime

Major County Sheriffs of America applauds President Biden for his leadership in announcing new measures this week designed to address violent crime in the United States - a continuing concern for sheriffs and other law enforcement leaders across the nation. We welcome the additional resources the Biden Administration is providing to local law enforcement as we work to enhance safety in all our communities. MCSA looks forward to discussing the details and working with administration officials to implement common-sense measures.
