Statement of MCSA President Peter J. Koutoujian regarding congressional police reform negotiations

“Over the past year, Major County Sheriffs of America (MCSA) has engaged in active and good faith dialogue with lead negotiators regarding police reform proposals.

In recent months as these discussions have intensified, MCSA has remained at the table providing constructive input on all proposals under review, as well as suggestions to further improve the system. Ensuring that different ideas and perspectives are fully considered will help ensure the best possible outcomes for everyone.

We look forward to continued collaboration with Congress and other stakeholders on efforts to improve public safety for the communities we have sworn to protect.”
